## **1 What is this god like?**

Vengeful, spiteful, controlling, emotional, and strict. The rules are explicit, and with severe consequences. This God makes himself known, and is highly respected. Even so much in that his name is not fully represented in text or speech out of respect. He speaks to the people, unlike other religions or gods.

In another sense he's concerned, loving, and understanding of his people. Promising blessings and benefits for following his word. He values his followers and hopes they grow, and share the story amongst themselves and others.
